IREP Training Portal

Portal Screens for Students, Trainers, Colleges and Parents

Industry-Ready Engineer Program · B.Tech Semesters 2 to 7

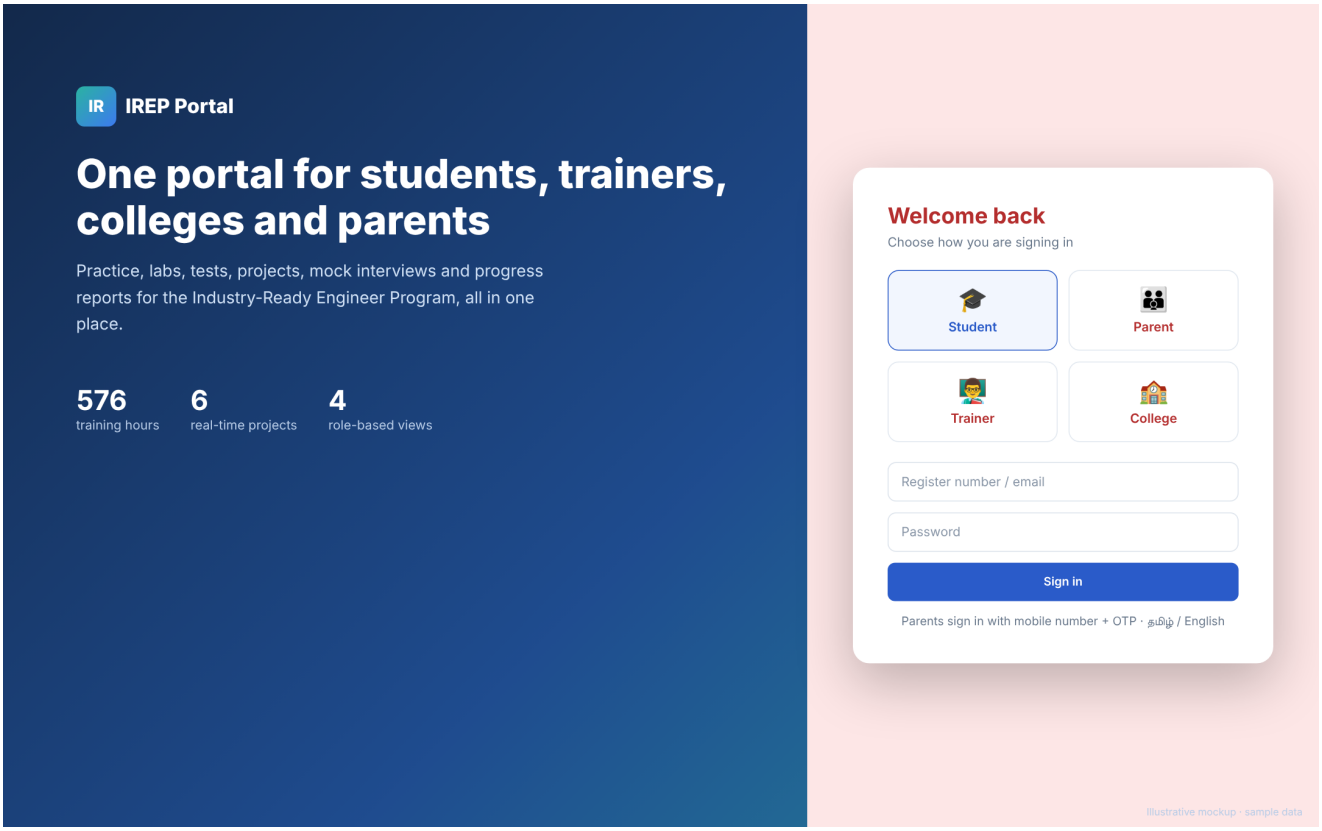

Illustrative mockups with sample data, for MoU presentations and parent orientation

Portal at a Glance

Audience	Key screens
Students	Dashboard, Live Sessions, Coding Lab with AI reviewer, Practice Tests, Virtual Labs, Sprint Board, Mock Interviews, moderated Discussion Groups (no 1-1 student chat)
Trainers	Batch dashboard, Live Classroom, attendance, code reviews, at-risk students, Message Hub with moderation, reports
College / Placement Cell	Program overview, branch-wise readiness, certifications, mock drives, MoU reports
Parents	Progress cards, attendance, portfolio, events, trainer messages; Tamil and English, web and mobile

1. Sign-in & Role Selection

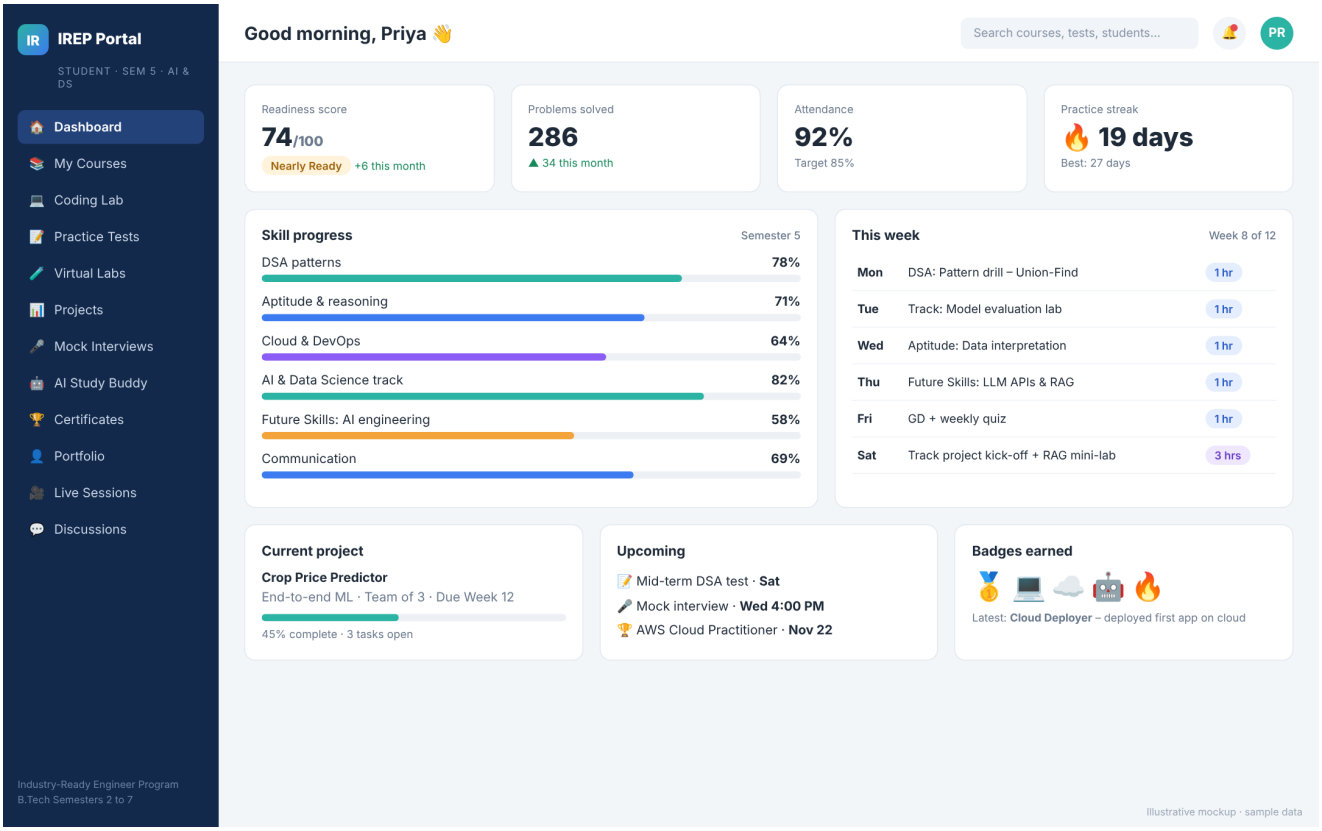

Audience: All audiences

- One portal with four role-based views: Student, Parent, Trainer and College
- Parents sign in with mobile number and OTP; no password to remember
- Tamil and English language options

2. Student Dashboard

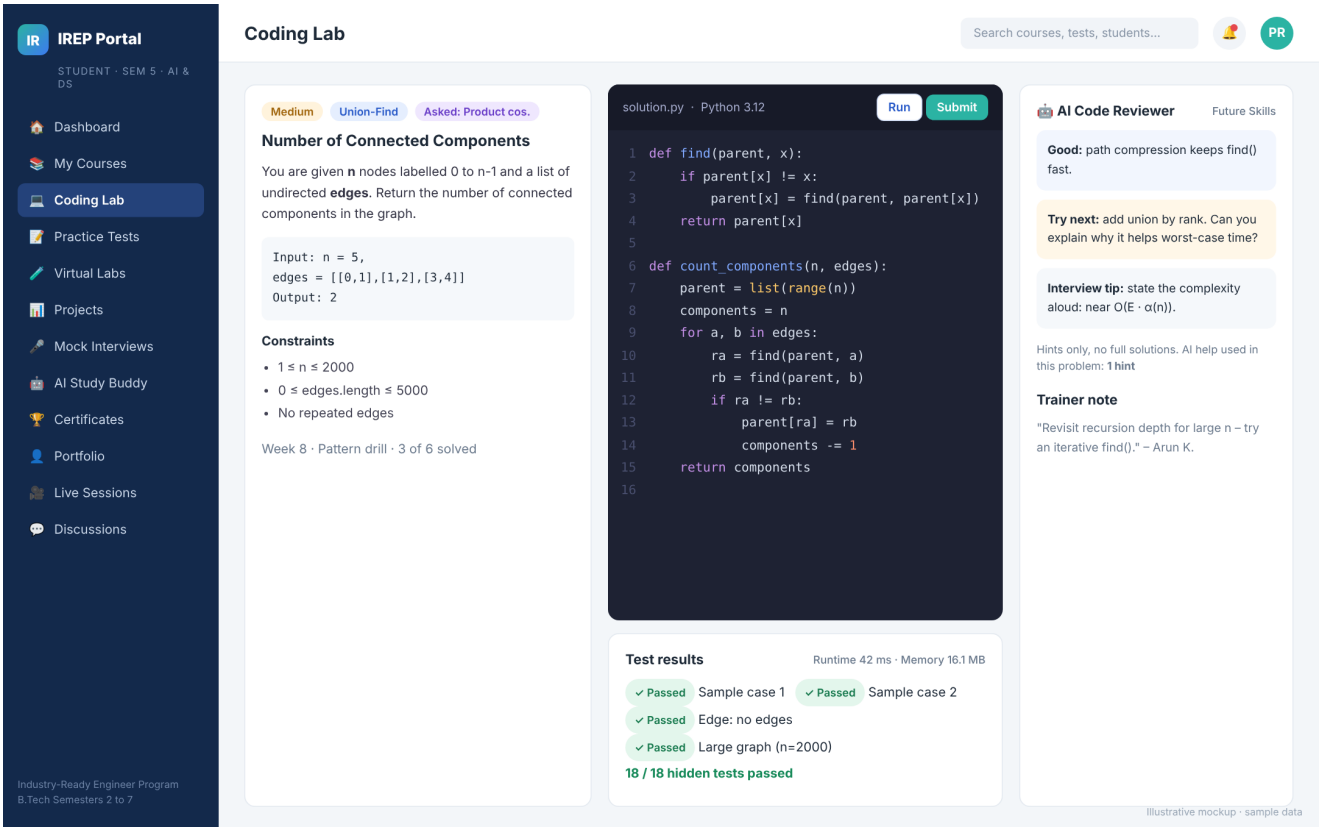

Audience: Students

- Readiness score with band (Placement Ready / Nearly Ready / Needs Support)
- Skill progress across DSA, aptitude, cloud, track and Future Skills
- Week plan matching the Mon to Fri 1-hour sessions and Saturday 3-hour lab
- Current project, upcoming tests and interviews, and badges

3. Coding Lab

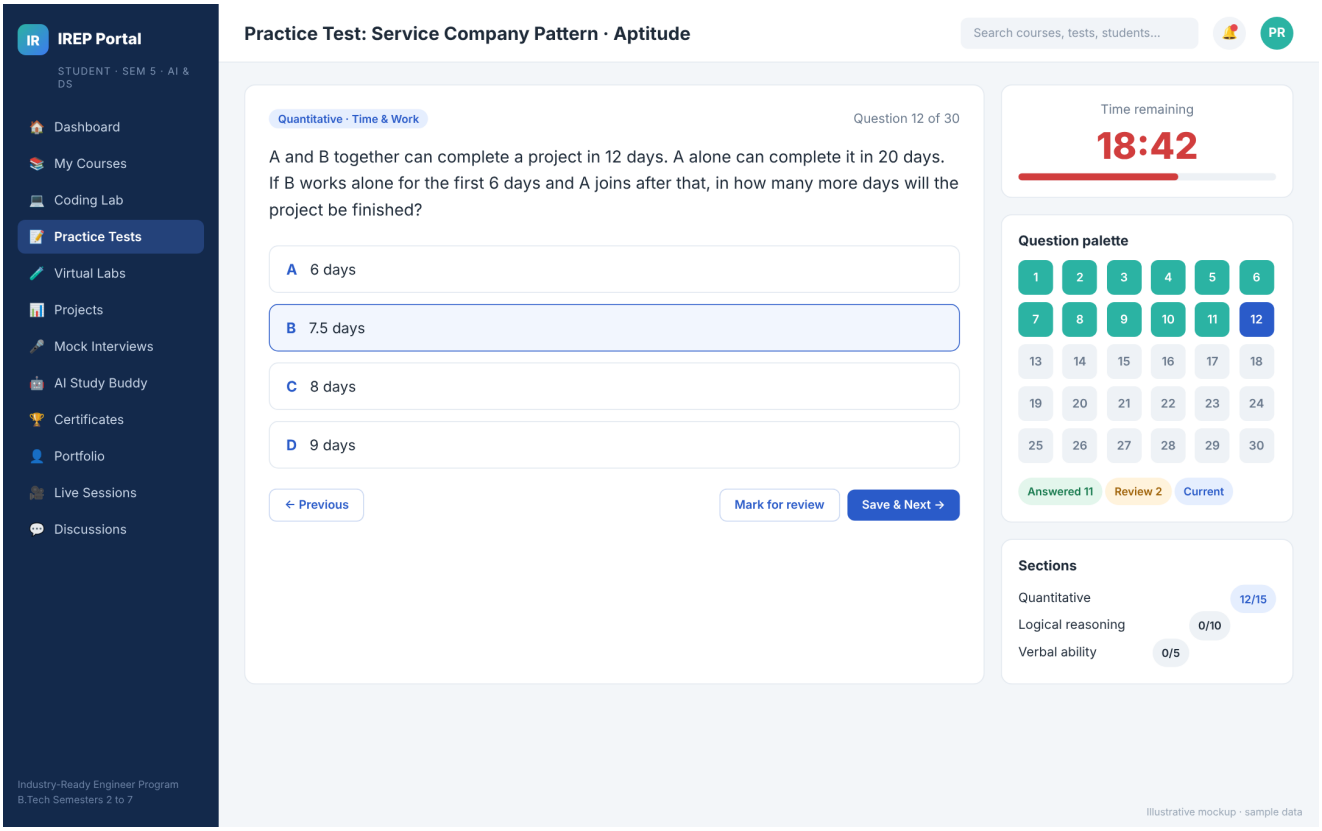

Audience: Students

- Problem statement, browser code editor and instant test results
- AI Code Reviewer gives hints and interview tips, never full solutions
- AI help used is tracked, building responsible AI habits
- Trainer notes appear alongside each problem

4. Practice Tests

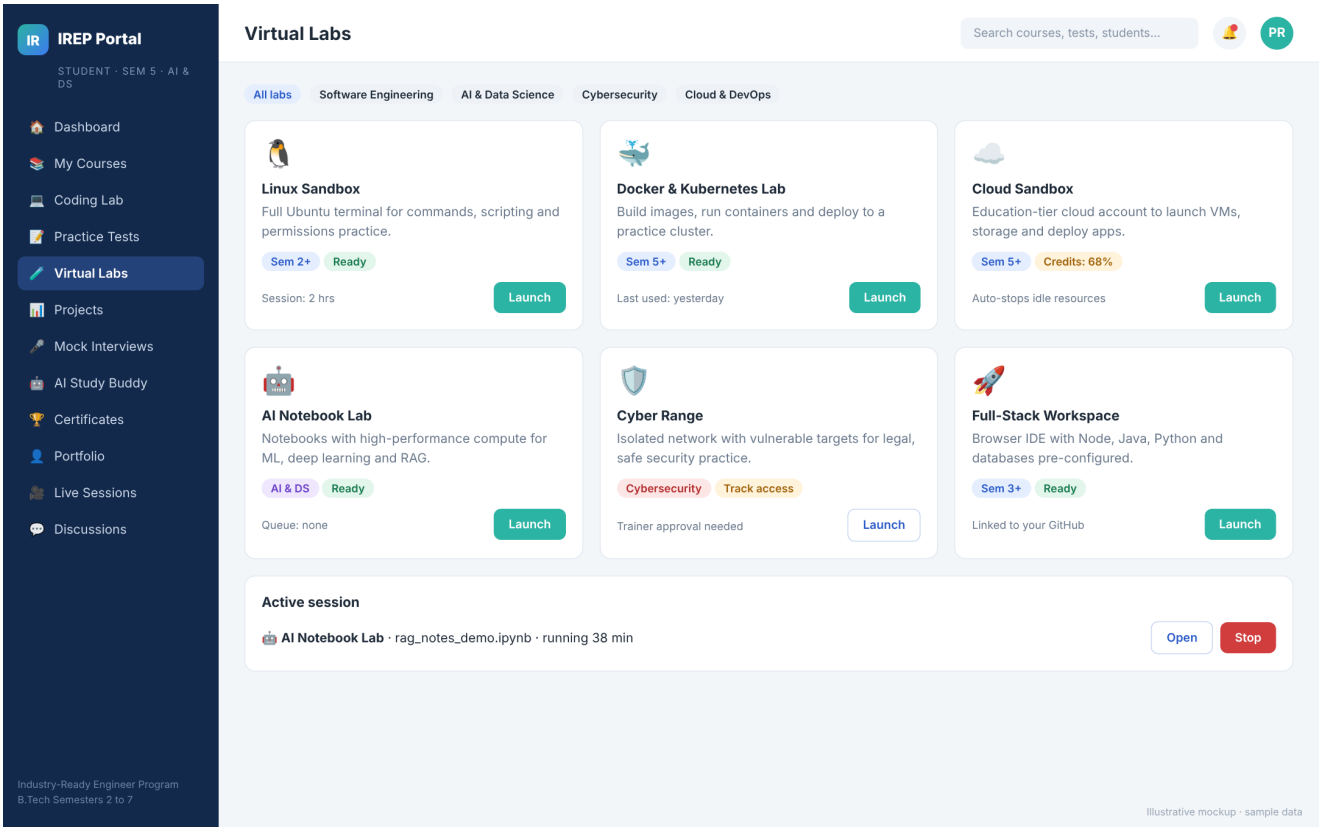

Audience: Students

- Timed tests in real company patterns (service and product companies)
- Question palette, mark-for-review and section-wise progress
- Instant scoring with topic-wise analysis after submission

5. Virtual Labs

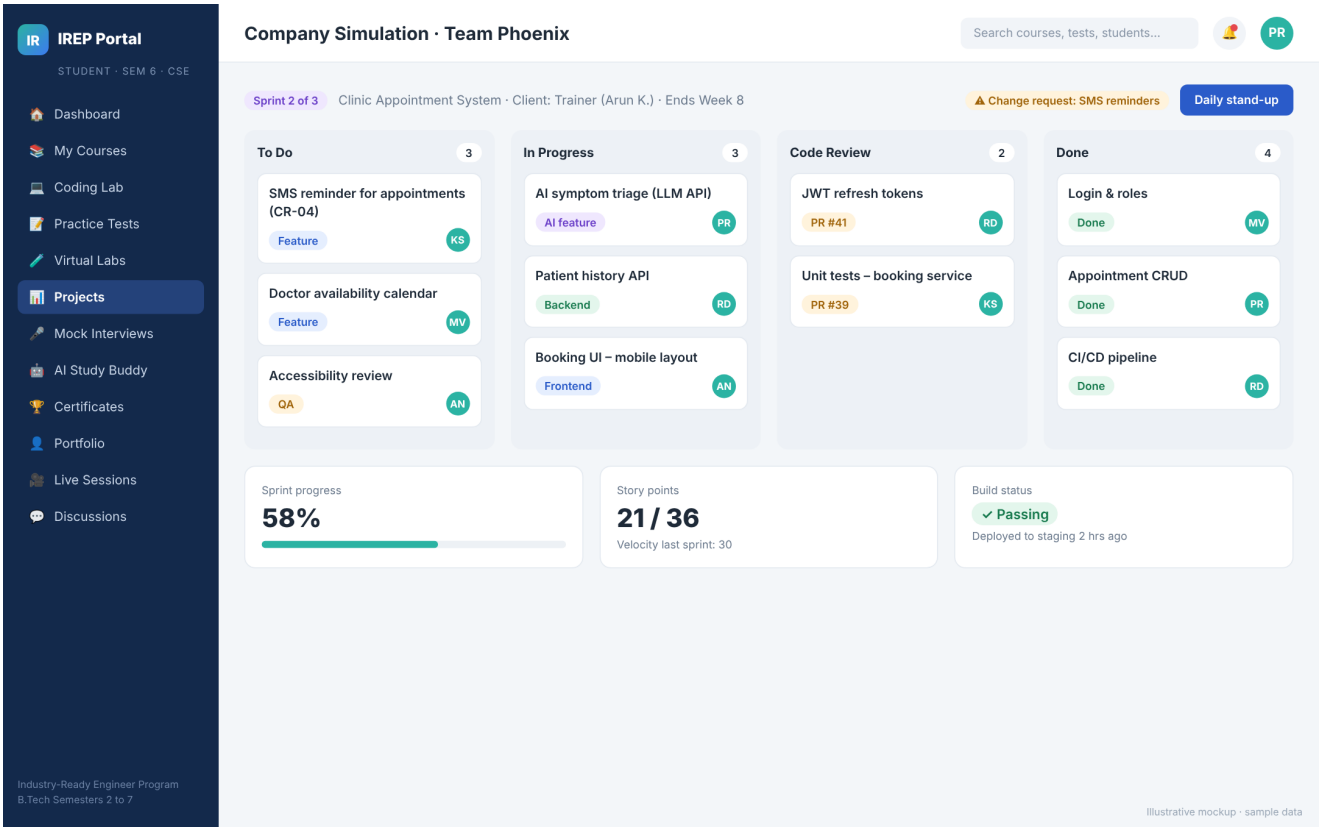

Audience: Students

- One-click lab environments: Linux, Docker and Kubernetes, Cloud, AI notebooks, Cyber Range, Full-Stack workspace
- Cyber Range is isolated and needs trainer approval for safe, legal practice
- Labs are unlocked by semester and track

6. Company Simulation · Sprint Board

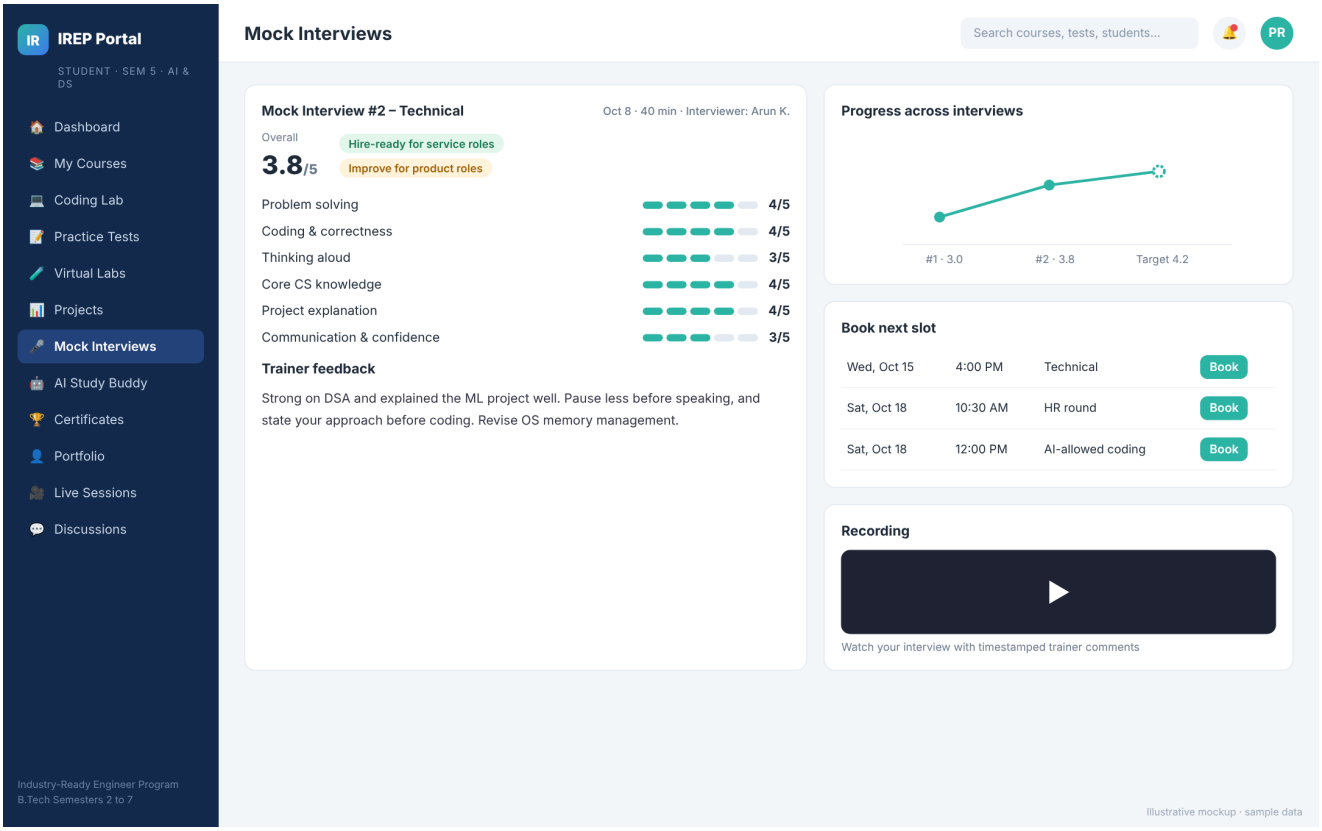

Audience: Students (Semester 6)

- Teams work on a real project in sprints, just like a software company
- Tasks move from To Do to Done with code reviews and CI/CD status
- Client change requests and an AI-powered feature in every project

7. Mock Interviews & Feedback

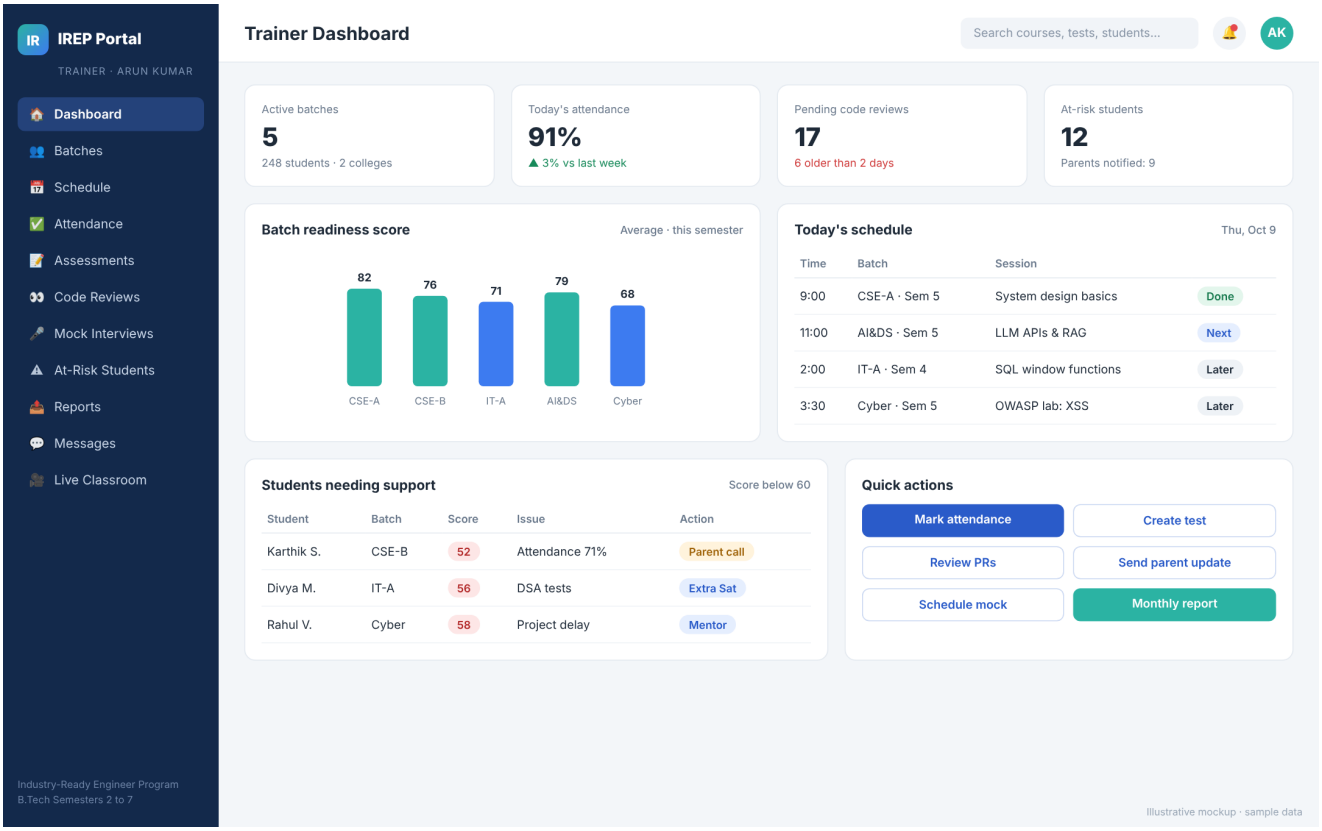

Audience: Students

- Rubric scores for problem solving, coding, thinking aloud, core CS and communication
- Written trainer feedback and recorded sessions with timestamped comments
- Progress trend across interviews; book technical, HR and AI-allowed rounds

8. Trainer Dashboard

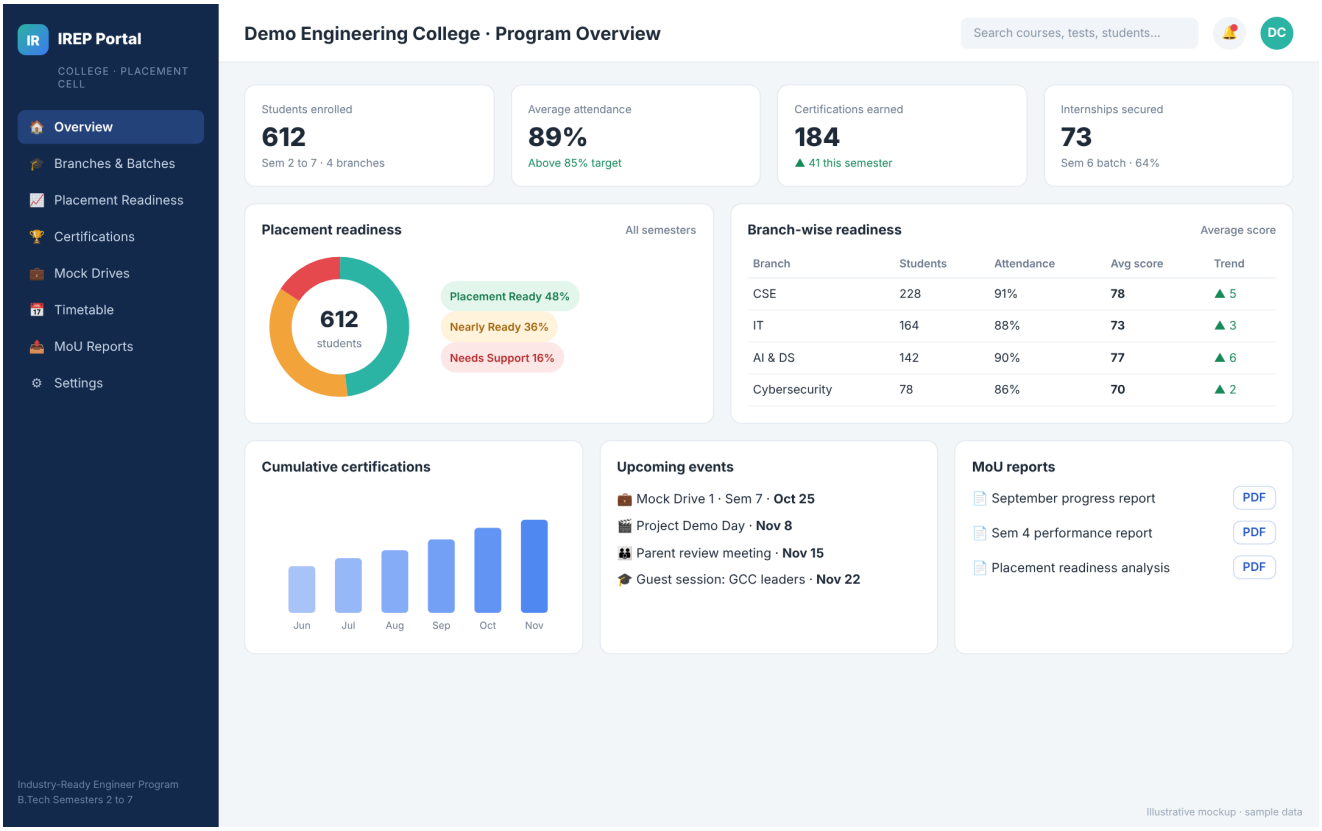

Audience: Trainers

- Batches, attendance and pending code reviews at a glance
- Batch-wise readiness scores and today's schedule
- At-risk students with suggested actions such as a parent call or extra Saturday session
- Quick actions: attendance, tests, mock interviews, parent updates and monthly reports

9. College / Placement Cell Dashboard

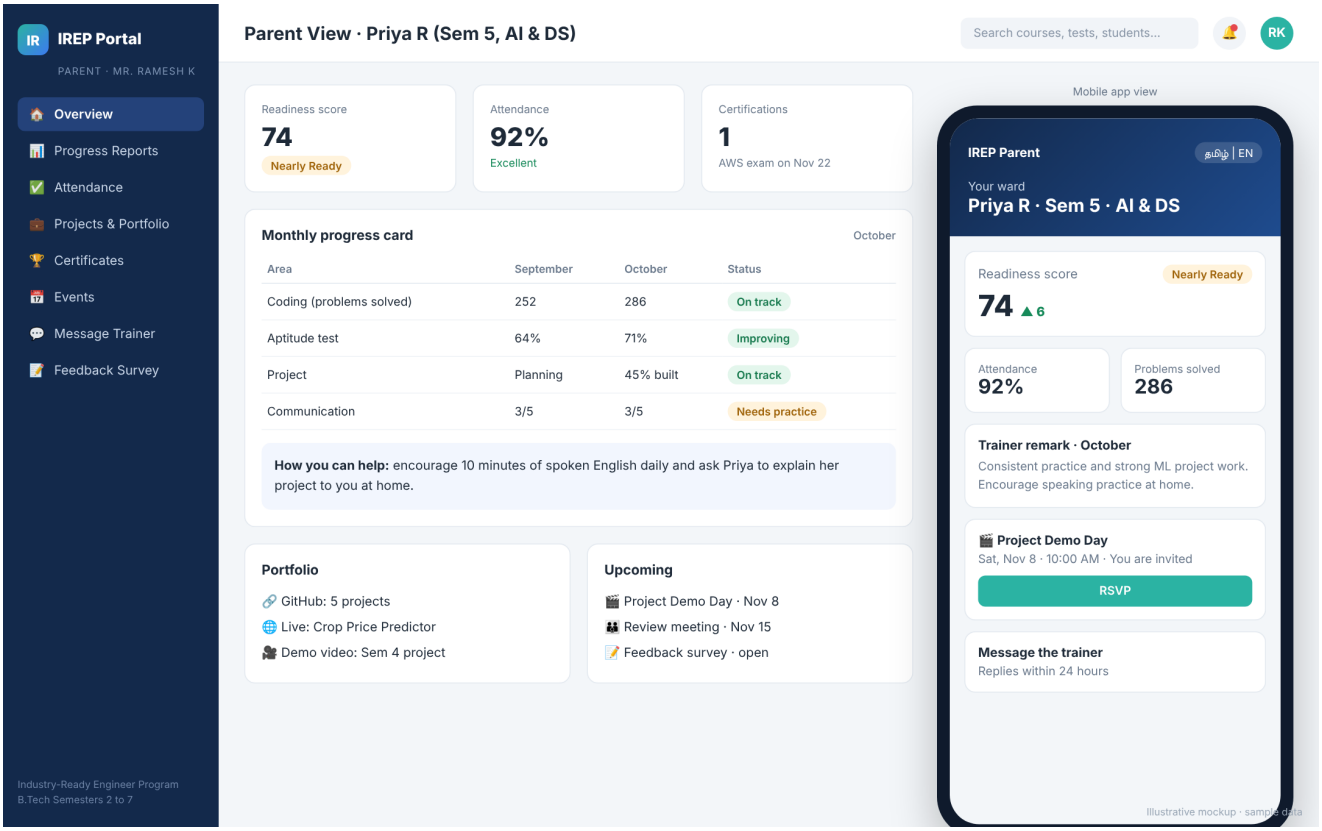

Audience: College management & placement cell

- Enrolment, attendance, certifications and internships across branches
- Placement readiness distribution and branch-wise trends
- Upcoming events and downloadable MoU reports in PDF

10. Parent View (Web & Mobile)

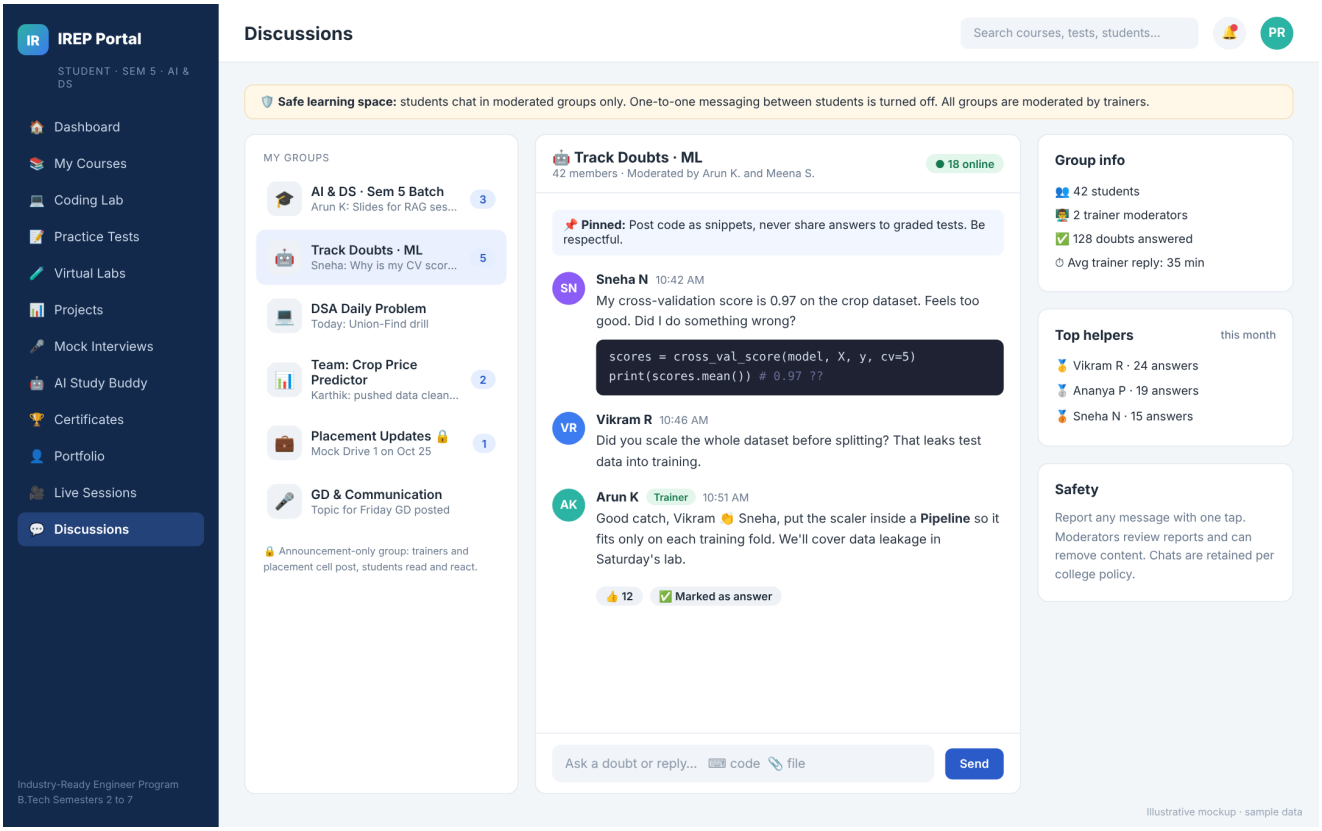

Audience: Parents

- Monthly progress card comparing this month with last month
- Simple guidance on how parents can help at home
- Portfolio links, event invitations with RSVP, and direct messages to the trainer
- Mobile app view in Tamil and English

11. Discussion Groups

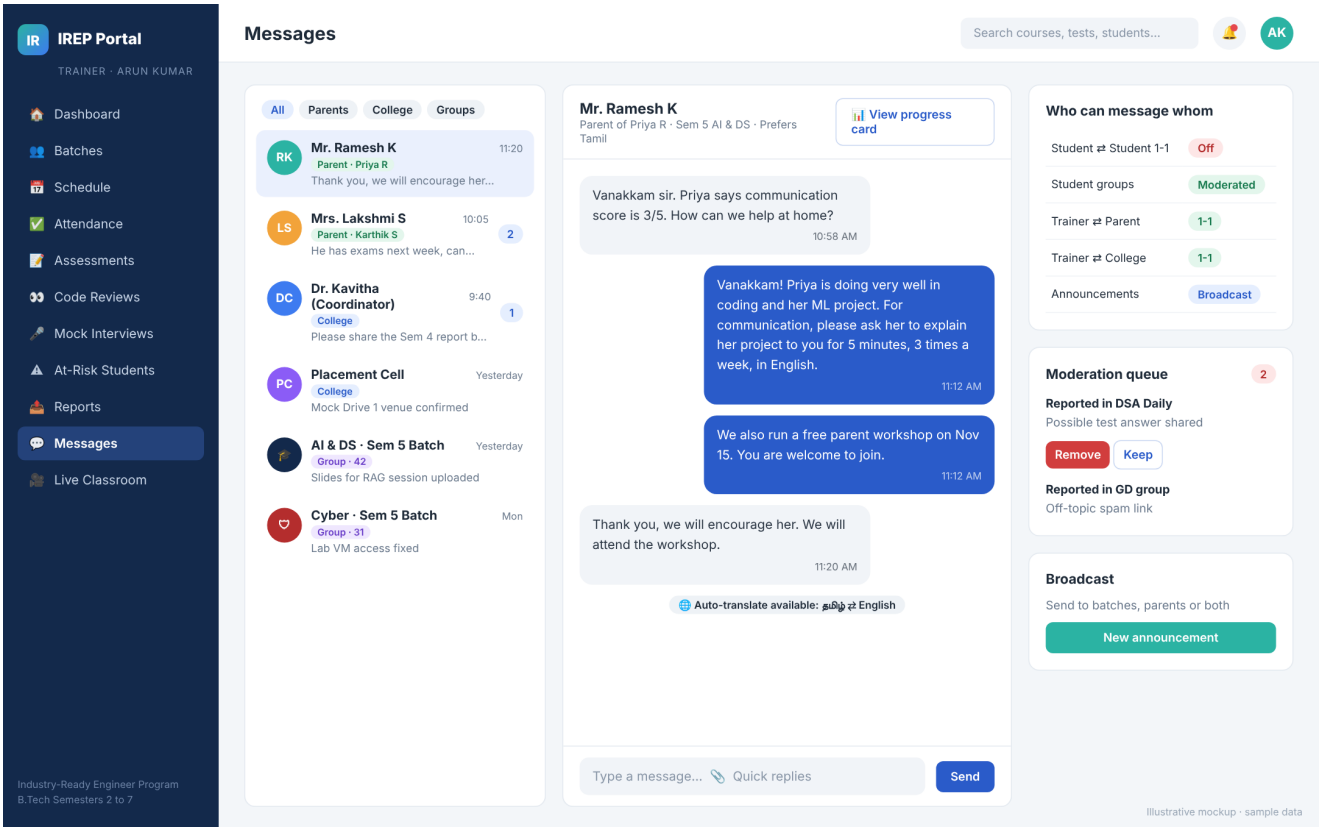

Audience: Students

- Students chat only in moderated groups; one-to-one messaging between students is turned off
- Groups for batch, track doubts, daily DSA problem, project teams and GD practice
- Announcement-only groups for placement updates
- Code snippets, trainer-marked answers, top helper recognition and one-tap reporting

12. Trainer Message Hub

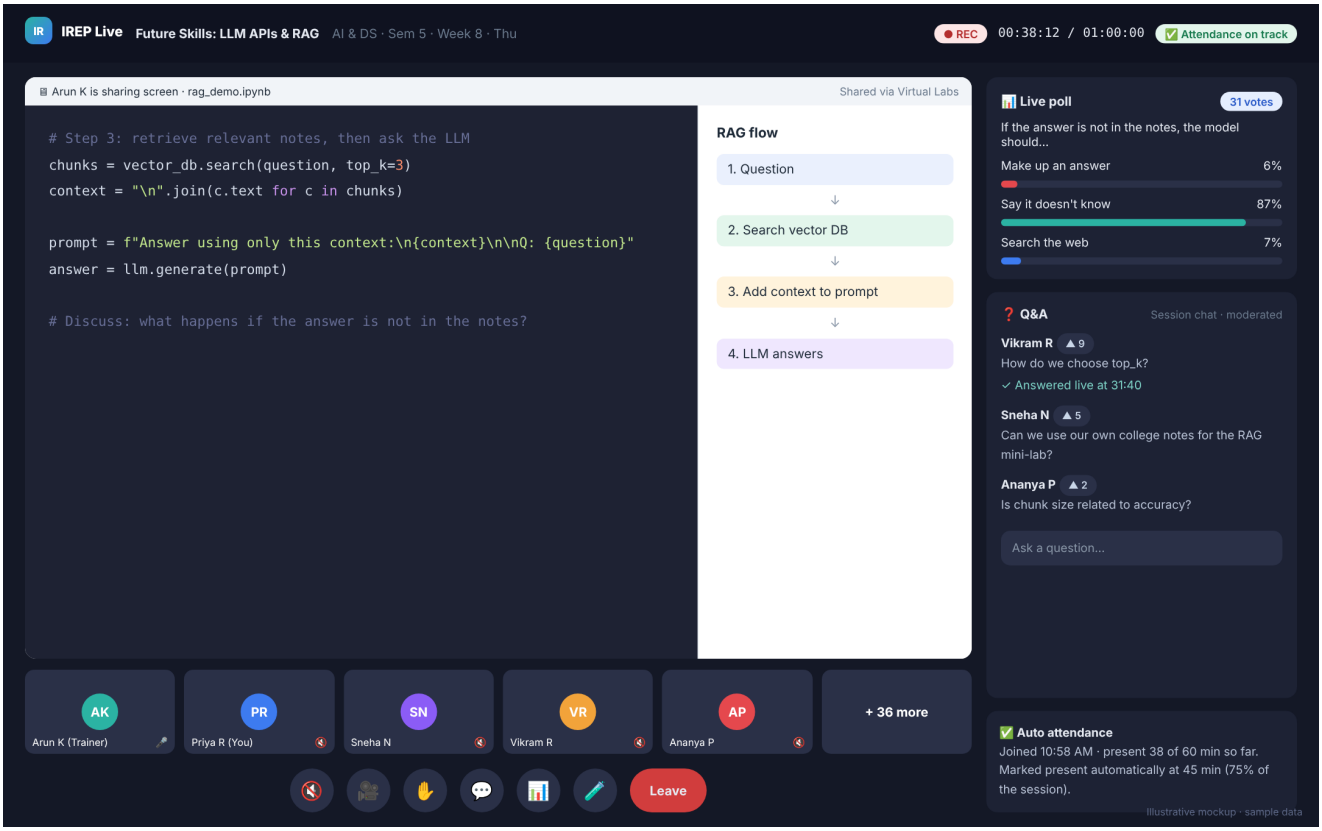

Audience: Trainers

- One-to-one chat with parents and college coordinators, with Tamil and English auto-translate
- Clear rules for who can message whom
- Moderation queue for reported group messages
- Broadcast announcements to batches, parents or both

13. Live Classroom

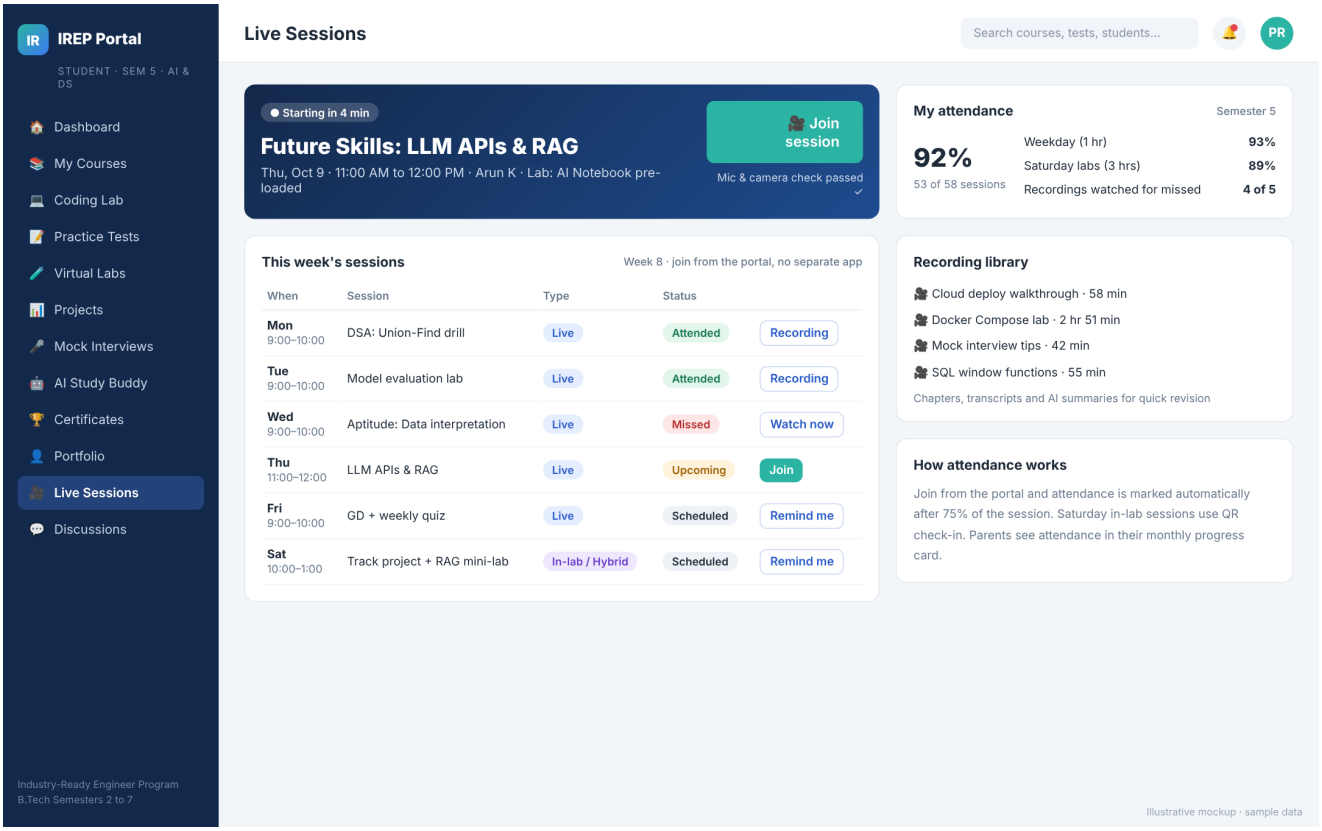

Audience: Students & Trainers

- Attend every session inside the portal, with no separate meeting app
- Screen sharing straight from the Virtual Labs, live polls and upvoted Q&A
- Raise hand, moderated session chat and recording
- Automatic attendance once a student stays for 75% of the session

14. Live Sessions & Recordings

Audience: Students

- One-click join with device check before the session
- Weekly schedule matching the Mon to Fri and Saturday plan
- Recordings with chapters, transcripts and AI summaries for missed sessions
- Attendance summary that also feeds the parent progress card
